

**2007 Florida Entomological Society Meeting
Industry Symposium:
"Mode of Action, Biochemistry, and Insecticide Resistance"**

Organizers:

Marco Toapanta, Bayer CropScience, and Scott Ferguson, Atlantic
Turf

Contact: marco.toapanta@bayercropscience.com

When: July 16th, 2007

Location: Ritz Carlton Resort, Sarasota, FL. 1-800-241-3333

Time: 9:50 to 12:00

Visit www.flaentsoc.org for more information on
registration

Companies and Institutions

Participating:

Atlantic Turf

BASF

Bayer CropScience

Dow AgroScience

Dupont

FMC

Glades CropCare

Syngenta

University of Florida

Topics to be discussed:

1. IRAC-US and Neonicotinoid Resistance Management Recommendations.
2. Resistance of Field Populations of *Frankliniella occidentalis* to Spinosad.
3. Spinosad Resistance Management Strategies.
4. Movento, a New Systemic Insecticide for Sucking Insect Pest Management from Bayer CropScience
5. Siesta (Metaflumizone); A new Fire Ant Bait from BASF
6. Coragen (DPX-E2Y45): A Novel Anthranilic Diamide Insecticide (chlorantraniliprole) for the Control of Fruiting and Leafy Vegetable Pests.
